SUMMARY

Diploma majoring in Informatics Management at LP3I Jakarta Polytechnic with a current GPA of 3.44, seeking internship opportunities in the field of Software Development/Web Development. During my studies, I have developed several projects, including creating a mountain information system website, an internal dashboard, and various frontend projects. I possess strong soft skills such as problem-solving, communication, time management, and decision-making.

EXPERIENCE

PT. Bringin Gigantara   **Feb 2024 - Mar 2024**

Risk management

- Conduct thorough reviews and validations of documents to ensure accuracy and compliance with company standards.
- Utilizes attention to detail to identify discrepancies and errors such as Dangerous Goods documents, House airway bills.
- Maintain organized records of verified documents, ensuring easy retrieval and reference.

PT. Global Investment Institusi   **Aug 2023 - Dec 2023**

Independent study program campus merdeka

- Design and implement scalable web applications using modern frontend and backend technologies.
- Develop and maintain responsive and user-friendly interfaces using HTML, CSS, and JavaScript frameworks such as Flask.
- Build and manage robust backend services and APIs with technologies like Python.
- Integrate and manage databases such as MongoDB, ensuring efficient data storage and retrieval.

Halim Perdana Kusuma Airport   **2 Mar 2020**

IT Maintence

- Maintain and regularly check the internet and telephone networks on the servers at Halim Airport to ensure they operate smoothly.
- Repair and maintain the CCTV system to ensure it can monitor the entire area of Halim Airport.

EDUCATION

POLITEKNIK LP3I JAKARTA   **2021 - 2024**

Diploma in Information Management - GPA 3.44

- Creating a final project titled "Design and Development of an Information System Hosting Mountain and Highland Tourism Sites in Indonesia."

PROJECT

Puncak Nusantara   **2023 - 2024**

Web Developer

- In this project, I created flow diagrams and use cases to design a system.
- In this project, I created a frontend to add/edit mountain data, and the page was not found. after that, integrate using javascript so that it is interactive properly.
- By creating this application, starting from its functionalities and flow, its implementation is expected to enhance the interest of mountain climbers in Indonesia.

Izo Novel   **2022**

Android Developer

- In this project, one of the requirements is completing the 3rd semester final exam.
- In this project I created a login frontend, main page and novel details, then integrated it using the Java programming language so that after that it connected to the MongoDB database that had been provided by the lecturer

CERTIFICATIONS

- Certificate Full Stack Web Development intermediate from MSIB 2023
- Certificate Full Stack Web Development Basic from MSIB 2023.
- Competency Certificate in Database Administration from BNSP 2023
- Competency Certificate in Computer Operator from BNSP 2022
- Competency Certificate in Computer Engineering and Network from BNSP 2021

SKILLS

- Proficient in Microsoft Office applications such as Word, PowerPoint, and Excel, Visio
- Skilled in using programming languages such as JavaScript and Python
- Proficient in databases such as MySQL and MongoDB
- Proficient in UI/UX design using Figma, Adobe ilustrator, and Adove XD.
